

# Curriculum Vitae

Full Name	Trinh Duy Hau	Gender	Age	Working Experience	Foreign language ability	
		Male	27	5 years+	English	Others
					Fluently	
Education	<b>University</b> FPT University	<b>Major</b> Software Engineering				
Experience	<p>【Development experience】: Over 5 years            【Technical Domains】: Blockchain, Healthcare, Finance, Data, Wordpress            【Self PR】:</p> <ul style="list-style-type: none"> <li>• I have experience working on a wide range of domains including Blockchain, Healthcare, Finance</li> <li>• My expertise lies in building end-to-end solutions that deliver value to users and stakeholders alike.</li> <li>• I have a deep understanding of both front-end and back-end technologies, including popular frameworks like React, Angular, Vue.js, Node.js</li> <li>• With a strong foundation in frontend and backend development, I have successfully delivered projects that leverage the power of blockchain for decentralized applications. My skills in JavaScript, HTML, CSS, and various frameworks allow me to create robust and scalable web applications. I am passionate about staying up-to-date with the latest trends and advancements in the blockchain space, ensuring that I can provide innovative solutions to complex problems.</li> </ul> <p>【Technical Knowledge】:</p> <ul style="list-style-type: none"> <li>• Extensive experience with frameworks/libraries like ReactJS, NodeJS, Web3JS.... I'm skilled in HTML, CSS, and JavaScript, and have a strong understanding of responsive design principles and accessibility</li> <li>• Strong at UI/UX and using Figma</li> <li>• Strong experience building RESTful APIs and microservices, as well as working with databases like MySQL, PostgreSQL, and MongoDB.</li> <li>• Good knowledge in setting up and managing cloud infrastructure on platforms like AWS.</li> </ul> <p>【Soft skills】:</p> <ul style="list-style-type: none"> <li>• Ability to work independently as in a team</li> <li>• Work well under high pressure</li> <li>• Have logical thinking and problem solving skills</li> <li>• Very supportive in finding solutions for difficult problems</li> <li>• Able to mentor and coach the team members effectively</li> </ul>				<b>Key Skills and Level</b>	
					<b>Programming Languages</b>	
	Javascript	Senior				
	Typescript	Senior				
	<b>Frameworks, Libraries and Platforms</b>					
	NodeJS	Senior				
	Material-UI	Senior				
	NextJS	Senior				
	ReactJS	Senior				
	NestJS	Pre-Senior				
	ExpressJS	Pre-Senior				
	Web3JS	Pre-Senior				
	<b>Databases</b>					
	MySQL	Senior				
	Postgres	Senior				
	MongoDB	Pre-Senior				
	<b>Others</b>					
	AWS	Pre-Senior				
	Docker	Pre-Senior				

NO.	Period	Business (System Overview, Responsibility, Work scope, etc.)	Development Environment (OS/DB/Language)	Process	Team size
1	Sep 2022 ~ Jan 2024	<p>【Project】 : ZLP ZLP is a healthcare services provider that operates in Asia. They provide distribution, logistics, and commercial services to pharmaceutical and healthcare companies.</p> <p>【Business】 : Health care</p> <p>« Responsibility »</p> <ul style="list-style-type: none"> <li>• Fullstack-developer</li> <li>• Analyzing, designing solutions based on customer's requirements.</li> <li>• Design the architecture system for the product</li> <li>• Provide technical leadership and expertise to design, build, and maintain a robust and secure system</li> <li>• Managing the technical team and ensuring that they have the necessary skills and resources to complete the project. This includes assigning tasks, providing guidance and support, and monitoring progress.</li> <li>• Optimizing the system for performance, scalability, and reliability to ensure that it can handle high volumes of traffic and transactions.</li> <li>• Ensuring that the system complies with regulatory requirements</li> </ul> <p>« Acquired Skills »</p> <ul style="list-style-type: none"> <li>• Knowledge of data analytics, cloud and system</li> </ul>	ReactJS	Integration test	30
			NextJS	Coding	
			PostgreSQL, Mongo, SAP Hana	System test	Role Technical Leader
			Javascript	Analysis/Requirement	
			Azure		
			NodeJS		
		Tailwind			
NO.	Period	Business (System Overview, Responsibility, Work scope, etc.)	Development Environment (OS/DB/Language)	Process	Team size
~	Mar 2021 ~	<p>【Project】 : GLX NFT items Marketplace</p> <p>【Business】 : Marketplace, BLC</p> <p>« Responsibility »</p> <ul style="list-style-type: none"> <li>• Fullstack-developer</li> <li>• Analyze the customers' requirements</li> <li>• Design and implementation of blockchain-based solutions, such as smart contracts and decentralized applications</li> <li>• Design, build, and maintain a secure and scalable blockchain-based system that meets the needs of the business</li> </ul>	ReactJS	Integration test	15
			NextJS	Coding	
			PostgreSQL	System test	Role
			NodeJS	Analysis/Requirement	

3	Sep 2022	<ul style="list-style-type: none"> <li>Integrating with other blockchain networks and protocols</li> <li>Write BE job logic for intergrating with Blockchain as:               <ul style="list-style-type: none"> <li>Create wallet, get, transfer token balance</li> <li>Mint, transfer, buy, sell, offer NFT.</li> </ul> </li> <li>Break tasks for team member. review their codes and mentor them to finish tasks on time</li> <li>« Acquired Skills »</li> <li>Knowledge of Marketplace, Smart contract and Blockchain</li> </ul>	Javascript		Developer
			Solidity		
			Rust		
			Web3JS		
NO.	Period	Business (System Overview, Responsibility, Work scope, etc.)	Development Environment (OS/DB/Language)	Process	Team size
2	May 2019 ~ Mar 2021	<b>【Project】</b> :CMS Shipping and Logistic	ReactJS	Architecture Design	22
		<b>【Business】</b> : Shipping and Logistic « Responsibility »	NextJS	Coding	
		<ul style="list-style-type: none"> <li>Analyze the customers' requirements</li> <li>Collaborating with other senior developers, architects, and stakeholders to ensure that the system architecture is scalable, maintainable, and aligned with business goals.</li> <li>Leading the design and implementation of server-side APIs and microservices to support logistics operations, such as order management, inventory tracking, and shipping.</li> <li>Building front-end interfaces to allow logistics staff to interact with the system, such as dashboards, forms, and reports.</li> <li>Break tasks for team member. review their codes and mentor them to finish tasks on time</li> </ul>	PostgreSQL	System test	Role
			Javascript	Analysis/Requirement	Technical Leader
			AWS		
			NodeJS		
			Tailwind		
NO.	Period	Business (System Overview, Responsibility, Work scope, etc.)	Development Environment (OS/DB/Language)	Process	Team size
4	Jan 2019 ~ May 2019	<b>【Project】</b> :11WL Build a marketplace for user to buy, sell and exchange NFT	ReactJS	Integration test	15
		<b>【Business】</b> : Blockchain « Responsibility »	NodeJS	Coding	
		<ul style="list-style-type: none"> <li>Analyze the requirement</li> <li>Involving in some phases of the project. (Coding, Unit Testing And Defect issues).</li> <li>Code responsive</li> <li>Apply new design in Figma</li> <li>« Acquired Skills »</li> <li>Frontend: ReactJS, Nextjs, Typescript</li> </ul>	NextJS	System test	Role
			Solidity	Analysis/Requirement	Developer
			GraphQL		
			Hardhat		
			IPFS		
EtherJS					
Tailwind					
NO.	Period	Business (System Overview, Responsibility, Work scope, etc.)	Development Environment (OS/DB/Language)	Process	Team size
5	Jun 2018 ~ Jan 2019	<b>【Project】</b> :CCV CCV originated from the idea that we could make a difference by combining climate and geo data with state-of-the-art analytics to develop new insights	ReactJS	Integration test	12
		<b>【Business】</b> : Data « Responsibility »	NodeJS	Coding	
		<ul style="list-style-type: none"> <li>Fullstack-developer</li> <li>Investigate the requirements</li> <li>Communicate with customers to report the progress, clarify requirements</li> <li>Coding, review code, test</li> </ul>	NextJS	System test	Role
			Typescript	Analysis/Requirement	Developer
			GraphQL		
			Styled Components		
			React Testing Library		
« Acquired Skills »					
<ul style="list-style-type: none"> <li>Frontend: ReactJS, Nextjs, Typescript, Styled Components, React Testing Library</li> <li>Backend: Nodejs, GraphQL</li> </ul>
